PAYMENT GATEWAY

# DERB PAY

DERB PAY is a cryptocurrency payment gateway system that allows merchants to accept payments in cryptocurrency and UPI (Unified Payments Interface) payments. DERB Coin supports various cryptocurrencies such as Bitcoin, Ethereum, and Litecoin, among others.

With DERB Coin, merchants can accept payments from customers using their cryptocurrency wallets or UPI-enabled bank accounts. The system automatically converts the cryptocurrency payment into the merchant's local currency, and the funds are deposited directly into the merchant's bank account.

DERB Coin also offers several features to help merchants manage their payments and transactions, including real-time payment notifications, transaction history, and reporting. It also provides a simple and user-friendly interface that makes it easy for merchants to integrate the payment gateway into their website or mobile app.

The use of cryptocurrency and UPI payments in DERB Coin offers several advantages over traditional payment methods. Cryptocurrency payments offer fast and secure transactions, with lower transaction fees compared to traditional payment methods. UPI payments offer a convenient and widely used payment method in India, which is a growing market for digital payments.

Overall, DERB Coin offers a comprehensive payment gateway solution for merchants that want to accept cryptocurrency and UPI payments, providing a fast, secure, and cost-effective payment method that can help drive business growth.

## WALLET & SWAP

# DERB WALLET & SWAP

DERB swap is a decentralized swap, also known as a decentralized exchange (DEX), is a type of cryptocurrency exchange that operates on a decentralized platform, typically utilizing blockchain technology. Unlike centralized exchanges that rely on a central authority to facilitate transactions and hold user funds, DEXs allow for peer-to-peer trading without the need for intermediaries.

In DERB swap, users can trade cryptocurrencies directly with each other through smart contracts. Smart contracts are self-executing agreements coded on a blockchain that automatically execute trades based on predefined rules. These smart contracts act as the underlying mechanism for order matching, asset exchange, and settlement of trades.

# DERB WALLET & SWAP

DERB Coin wallet is a DEX wallet, also known as a decentralized exchange wallet, is a cryptocurrency wallet specifically designed to interact with decentralized exchanges (DEXs). These wallets provide users with direct access to DEX platforms, allowing them to trade cryptocurrencies directly from their wallets without the need to deposit funds on centralized exchanges.

DEX wallets typically offer features that enable users to connect to DEX platforms, view market data, place trades, and manage their cryptocurrency holdings. They integrate with the DEX's smart contracts, enabling users to interact with liquidity pools and trade assets directly on the blockchain.

DERB Coin Cart is a cryptocurrency-based e-commerce store that allows customers to shop for products and pay with cryptocurrencies such as Bitcoin, Ethereum, Litecoin, and others. The store operates on the DERB Coin payment gateway system, which allows for secure and seamless cryptocurrency transactions.

DERB Coin Cart offers a wide variety of products, from electronics and gadgets to fashion and home goods, making it a one-stop-shop for customers looking to spend their cryptocurrencies. The store provides a user-friendly interface that allows customers to browse and filter products by category, price range, and other criteria.

DERB Coin Cart also provides sellers with a simple and easy-to-use platform to set up and manage their online stores. Sellers can list their products on the platform and receive payments in cryptocurrency, which are automatically converted into their local currency and deposited into their bank account.

Overall, DERB Coin Cart is a cryptocurrency-based e-commerce store that offers a convenient and secure way for customers to shop with their cryptocurrencies while providing sellers with a user-friendly platform to manage their online stores.

# DERB METAVERSE

# DERB METAVERSE

Metaverse play-to-earn games are games that operate on a metaverse platform, where players can earn rewards in the form of cryptocurrency or other valuable digital assets for playing the game. Metaverse play-to-earn games are a relatively new concept that has emerged in the cryptocurrency and gaming industries.

In these games, players can participate in various activities such as completing quests, solving puzzles, and battling other players. As they progress through the game, they can earn rewards that can be traded or sold for real money. Some popular examples of metaverse play-to-earn games include Axie Infinity, The Sandbox, and Decentraland.

The rise of metaverse play-to-earn games has been driven by the increasing popularity of blockchain technology, which provides a secure and transparent way to track ownership and transactions of digital assets. These games have also gained popularity due to their potential to provide a new source of income for players in regions where traditional job opportunities may be limited.

Overall, metaverse play-to-earn games represent an exciting new frontier for gaming and cryptocurrency, offering players the opportunity to earn rewards while engaging in fun and immersive gameplay experiences.
